Foreword

The distances given in this booklet are the official road distances for the King's and Secondary Highways and the Tertiary Roads in Ontario as of 31st December 1974. The distances are given accumulatively in both directions, and in terms of both miles and kilometres.

All highways are listed in numerical order, with the Queen Elizabeth Way being given first. The point descriptions along each highway are listed from east to west, or from south to north, depending on the general direction of the highway. An X opposite a point description indicates that it is the chosen centre of the municipality named.

Highways in the 400 series, together with the QEW, are generally multi-lane, divided, controlled-access routes. Highways numbered from 2 up are generally conventional highways of two or more lanes. Highways in the 500 and 600 series are Secondary Highways. Roads in the 800 series are Tertiary Roads.

The explanations of various abbreviations used in the table are given on the following page.
